a famous composition depicting a man with a turban under an ogive of carved grapes bending over a dial

It resembles 041 but has “fringe” at both ends and a fringed line in the center running obliquely from lower left to upper right (rather than the simple line running from upper left to lower right in 041). If

041 resembles a cloth on a loom, \*163 resembles a rug.

there are two double strokes at the lower exterior part and four small strokes dropping from the upper horizontal line -- perhaps a new sign: dice in water

Lacus: The Latin word lacus means “opening, hole, pool, lake,” and was also the word for a distribution point in the public water supply of ancient Rome.

Locus: A curve or other figure formed by all the points satisfying a particular equation of the relation between coordinates, or by a point, line, or surface moving according to mathematically defined conditions.

Lindus: 1. From Ancient Greek Λίνδος (*Lindos*) Lindus *f*(*genitive* Lindi); *second declension*: Lindos, an ancient city on the island of Rhodes. 2. An LP by The Shadow Ring.

Luxus: Czech[edit]Noun[edit]luxus m luxury Synonyms[edit]přepych  
Derived terms[edit] luxusní

Lucus: In ancient Roman religion, a lucus is a sacred grove. Lucus was one of four Latin words meaning in general “forest, woodland, grove” (along with nemus, silva, and saltus), but unlike the others it was primarily used as a religious designation.

Lexus: Lexus (レクサス Rekusasu) is the luxury vehicle division of Japanese car maker Toyota.

Larches: Needles are deciduous. They fall from the tree in winter, turning brilliant yellow before they fall. Needles are about 1” long and typically grow in dense clusters (20-40) attached to short woody shoots (called spur shoots). Needles are soft to the touch—never sharp or spiny. Current-year needles are borne singly on slender pegs. Small, woody cones (1-2” long).
